●●●●●●

Due to the special nature of the material (recycled PET material) production-related variations are possible.

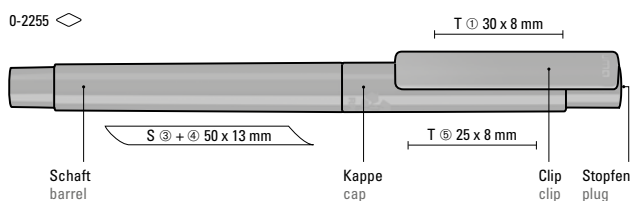

Das aus recycelten PET-Flaschen in Europa hergestellte rPET-Material eignet sich für einen langlebigen und nachhaltigen Werbeeinsatz. Dank der europäischen und klimaneutralen Produktion leistet der uma RECYCLED PET PEN PRO einen zusätzlichen nachhaltigen Beitrag zur Schonung der Umwelt.

The rPET material, which is produced in Europe from recycled PET bottles, is suitable for a durable and sustainable advertisement. Thanks to the European and climate-neutral production, the uma RECYCLED PET PEN PRO makes an additional sustainable contribution to the protection of the environment.

0-2255: Flüssig-Textmarker mit Gehäuse aus recyceltem PET-Material in gedeckelt glänzend weiß oder schwarz. Stopfen in den 6 möglichen Schreibfarben. Der Highlighter ist ohne Pumpen oder Anstechen sofort einsatzfähig. Neues Flüssigtintenleitsystem – Bessere Schreibqualität – Höhere Leuchtkraft – Längere Schreibdauer – Umweltfreundlicher – Produziert nach EN-71, ASTM D-4236, Flüssigtank austausch- bzw. nachfüllbar.

0-2255: Liquid highlighter with opaque glossy housing in white or black made from recycled PET material. Plug in 6 possible writing colours. Writes longer and more intensive as conventional highlighter, is without pumping or tapping operational immediately, supported in this way the sustainability concept. New liquid ink delivery system – better writing quality – greater luminance – longer writing time – ecologically superior – produced in acc. with EN-71, ASTM D-4236, liquid tank replaceable or refillable.
